To All Business Associates

March 2020

Over the years we've seen many American movies depicting uncontrolled viruses wreaking havoc on society, with entire cities or countries in total lockdown. Science Fiction has become reality and we've been thrown into a surreal existence where none of us are aware of the end point. Realistically all we can do is the best to protect ourselves and families, while contributing to the monumental global efforts being brought to contain the spread.

It is vitally important that we all support the President's actions; that we support our communities & families and that we encourage all of those around us to take all the precautionary measures that are being advised. By doing this, our people, our country and our businesses will recover once we overcome the pandemic.

MINEMA IS OPEN FOR BUSINESS!!!!

Most of our employees are now working from their home base. Our Sales Team, in particular, are set up with full access to our IT network and are able to support your requests for quotes, process your orders and answer general queries.

Our warehouse is operational on a skeleton staff reduced reduced hours, however we are able to prepare and make orders available. We have cleaning and sanitising services on site to limit or contain spread of the virus. We've deemed it unsafe to continue our delivery service, however we are making all urgent orders available for collection from our Sales Office in Randpark Ridge against a 24 hour notice, where sanitising measures are also in place.

MINEMA has been accepted by the SA government as an essential service provider and our Certificate to this effect is posted in the Documents page on our website.

An emergency number has been initiated with Whatsapp service added and you are invited to use this if you are unable to make contact with our offices. We will attend to your needs to the very best that we possibly can.

MINEMA Emergency 065 912 5318

Our website will also be updated regularly with news or information while we try to make as many positives of this situation.
